We have for sale one 5 h.p. and one 2 1/2 h. p. gasoline engine—Peterson Motor Company

A concrete sidewalk is being built in front of the new opera house and the Whitlock Lumber Yard.

A win-the-war meeting was held at Springburn Schoolhouse on Friday last. A couple of speakers from Oyen attended.

The construction of the Curling ring is under way and will be completed in about ten days.

Oyen has been favored lately with some modern Hallowe'en, the smaller girls have taken a fancy to the bow and arrow.

A meeting of the Red Cross Society was held at the home of Mrs. B. E. Kelly's on Thursday afternoon last.

The profit realized from the concert given next Friday evening by the Castle Square entertainers, will be donated to the Red Cross.

Many persons took advantage of the opportunity to attend a dance at Green Mount Hall last night. Lunch was provided and a five piece orchestra furnished the music.

Private Chester Topper, who left Canada with 17th Batta., and when in France was transferred to 50th Battalion, has sent service cards to friends and relatives. He was admitted to a hospital at Rouen, France, on October 20th, and has since been there.

Where information received his wound is likely a slightly one.

W. S. Foster, who has been employed as teller at the Bank of Hamilton, left for western point on Thursday last.

My patients are always pleased with the careful and reliable treatment of the teeth and mouth that they receive at my office, Dr. Taylor, Alaskan.

The Canadian Patriotic Fund has received \$108.50 from Acadia Constituency during the period from September 1, until October 31, 1917. The yearly allotment was \$10,000.

Born—To Mr. and Mrs. O. G. Sibbald, a son on Nov. 10th.

Hon. A. L. Sifton Will Speak in Oyen Thursday, Nov. 29th.

The Hon. A. L. Sifton, Minister of Customs and Candidate for Union Government for the constituency of Medicine Hat will speak in the Opera House, Oyen, on Thursday, Nov. 29th, at 8 p.m. He will also speak at Chinook, on Wednesday, 28th, and at Youngstown on Tuesday, Nov. 27th. Don't forget to attend one of these meetings and hear the true facts of Union Government.

LOCAL TRIBUNAL

Fifty claims for exemptions were before the Local Tribunal this week of which the following thirteen were disallowed: Jas. M. Tate, Benton; W. J. Walker, Carleton; P. Vyralla, Carleton; Percy N. Friso, Carleton; Alex. McDonald, Excel; P. M. Routledge, Lanfane; Thomas Thompson, Oyen; Frank Gdaniski, Oyen; Jas. N. Fies, Oyen; O. Desorey, Oyen; E. M. Thompson, Oyen; H. B. Thornton, Oyen; and Mark Melson of Mohlbach.

Provincial Police Lecture

Howard J. King in U.S.

Don May went to Kindersley last week to confer with the Saskatchewan police relative to getting extradition papers for Howard J. King, who is said to have absconded with the proceeds of a quantity of wheat which was not his own. The accused was traced by the police and arrested somewhere in the United States. He will be brought back to Alaskan for a preliminary hearing.

Many were not in favor of having the mounted police with drawn by the federal government for the special work that they are now on and put forth the argument that the provincial police systems would never come up to the standard set by the "Riders of the Plains." The provincial police were slow at first to get the machinery into action but are now proving themselves effective.

Alaskan Frontier Town Gives Way to Oyen

The Canadian Northern Railway Company is taking up the way at Alaskan and it is being laid here. That is not all the company is doing for Oyen, coal docks are being built and a large addition to the station. Oyen was founded in the summer of 1912 and has never experienced a railway boom. As soon as conditions were adjusted after the trying period of 1913-1914, the town started to develop.

On to build up more elevators were erected and one of the finest schools in the province is under construction. Alaskan was a Saskatchewan town that advanced rapidly during the early days when it was the end of the steel but when the cars began to roll farther westward, business dropped off. The citizens of that town will recall the time when a deputa-tion greeted Sir Wm. McKenzie at the station. During the conversation with the railway builder, he said that Alaskan had a bright future. Sir William was kind enough not to say that he had been in Oyen first.

"Isle O' Dreams" in Oyen's New Opera House

At the time when a tear was about ready to drop, Ivan, played by Julius Yelle in the Isle of Dreams, would say something witty in true Irish fashion and a hearty laugh would replace the tears. Mr. Yelle is a young star and he had the support of an all star cast.

The advance agent pleaded with P. W. Todd, the manager of the opera house which is now under construction here, to let the United Producing Company stage the play on Thursday last, and Mr. Todd gave them permission. The troupe arrived in Oyen on the morning and found the new building without heat, light or seating accommodation but everything was in place when the crowd began to arrive at the door at 7.30. There was a lineup at the door until 8.50 p.m. when the play started.

The building will be completed at an early date. The management has informed The News that the best class of attractions have been booked. "The Birth of a Nation" will be here next month.

Work Shoes in high or low tops in tan and black. Solid leather soles. If you need Shoes, see Johnson.

C. P. JOHNSON,

MEN'S OUTFITTER,

OYEN

Opportunity Knocks Twice for Veterans

Vocational Training Classes of M. H.C. Give Every Man a Second Start in Life

There are millions in the world but the average man has never seen one. A few score of us pull down \$100,000 a year and most of us \$10,000 but most of us worry about on jobs that put us an annual income of \$10,000 figures, squeezing pleasure out of life by the pennyworth because we hadn't the chance or didn't take it when we were young.

The military hospital commission, whose business is the healing and education of returned soldiers, is giving a man a chance to profit by his experience and there are hundreds of vocational training departments of the returned soldier in this present moment enrolled in the classes of the vocational training departments who are preparing themselves during their convalescence, even in spite of a handicap, to earn better money than they did before they enlisted.

The commission, building on the eagerness of the men, is lifting scores out of the class of unskilled labor into the ranks of expert craftsmen, and returning them to their families better able to care for them than when they were away.

In the great Central Technical School in Toronto, the largest building of its kind in Canada, the equipment which cost thousands of dollars is being used for the training of the returned men, and classes in all trades are now under way, from world-old carpentry to movie operating.

Travel has educated men who without the war would have run the closely circumscribed vision of a small town. Experiences have been learning trials during their convalescence that will assure them good living when they have finished.

There is no long period of apprenticeship ahead, but days full of learning in theory and practice with one's own hands. The men are preparing themselves in the future to be self-sufficient.

There are men in the electrical department, who are already competent workmen after only a few months of training. They are now on their own, and are not dependent on the world for help. One of these boys was a farmer, and he had to the land before he enlisted but all the time hankering for electricity.

His dream was to run an electric car, because it seemed sort of possible, but with few means. He called it "Edison" around the house, and he had a small motor, but it wasn't going to be a success. He had a small motor, but it wasn't going to be a success.

British Air Service

Progress in Construction of Aircraft During the War

A recent English writer on the subject of aircraft in war says: "The Royal Flying Corps went to war with about eighty-two machines in 1914. By the end of the war they were dependent upon France for engines and on Germany for instruments. The Belgian army had about thirty-eight aircraft in 1914, and the French army had about 600. Germany took the field with more than 600 two-seater aeroplanes designed throughout for war service, besides hundreds of slower units for training and other purposes. She had strategically placed on the frontiers twenty-one flying groups illuminated by powerful lighting systems—in one case a 2,000,000 candle power revolving electric flash—for use in night flying, while a year later British pilots attacking Zeppelins had to be content with petrol fires in buckets for lighting the landing places. A month before the war German and British officers visited the concentration camp at Nibelungen, and strictly noted the British strength in aircraft. From this picture the story turns to progress in British aeroplane construction during the war—we built hundreds in the first year of the war, thousands in the second, many thousands in the third year. The view from the production of tens of thousands in the fourth."

They Cannot See the Point

Strange Grievance of Germany Against the United States

Germans are not saying as much now as they did at the start of the war. They are not saying as much now as they did at the start of the war. They are not saying as much now as they did at the start of the war.

What they mean when they say that is that, because of supplies bought in this country, France and England were not conquered as easily as in German opinion, they were.

Then Canada has two rich uncles. More of a favorite with British life was largely with money from these sources and that huge and costly building of the United States has turned in its funds freely. It is not merely that the Canadian Pacific was built with money from these sources and that huge and costly building of the United States has turned in its funds freely. It is not merely that the Canadian Pacific was built with money from these sources and that huge and costly building of the United States has turned in its funds freely.

Only this week the president of the reichstag, summoned at the use of the "humanity" by President Wilson, has been good for the world to have Germany quickly victorious—does not mean that the Germans and probably it never will.

AMERICAN FINANCIAL EXPERT ON CANADA'S BUSINESS POSSIBILITIES

A NATION WITH THE PRIDE OF AN EMPIRE

Mr. Clinton B. Evans, Writing in the Philadelphia Public Ledger, Tells of the Wonderful Surprises Made by Canada, and Admits The United States Can Learn Something From Her

Among distinguished American men of affairs who have recently visited Canada for the purpose of personally investigating the country's prospects and opportunities is Mr. Clinton B. Evans, editor of "The Economist" and Western editorial representative of the Philadelphia Public Ledger. In a recent article in the "Philadelphia Public Ledger" Mr. Evans has some things to say of Canada which makes interesting reading.

"Purport and other combination of effort have achieved wonders with seeming small material other than that which nature has provided. The same is true of the one city of Chicago which has, in 1914, produced more than \$1,000,000,000 in value with a generation a huge wild aggregate of land and buildings."

Mr. Evans has been at among the nations with its 3,700 miles from Atlantic to Pacific. A government which conceives its duty to be the promotion of the people's interests, a railroad company which "spans the world" by rail and steamship, a population with the vigor and ambition of pioneers, a tradition that runs in its veins to the days of Charles the Second, over the history of the country, the company is one of some of the potencies that have given a colony the pride of an empire.

"Then Canada has two rich uncles. More of a favorite with British life was largely with money from these sources and that huge and costly building of the United States has turned in its funds freely. It is not merely that the Canadian Pacific was built with money from these sources and that huge and costly building of the United States has turned in its funds freely. It is not merely that the Canadian Pacific was built with money from these sources and that huge and costly building of the United States has turned in its funds freely."

NO TERMS YET IN SIGHT WILL LEAD TO ENDURING PEACE

STIRRING ADDRESS DELIVERED BY LLOYD GEORGE

British Prime Minister Says That No One Would Prolong the War Longer than is Necessary to Secure a Lasting Peace, and One That Will Not Lead to a More Devastating War

Right Hon. David Lloyd George, speaking at a meeting held in London recently, for the purpose of launching a campaign for greater national economy, said in part:

"I am not going to predict when the end of the war will come. No man in his senses would do so. I am one hour if there were opportunity for real and lasting peace. (Loud applause). But it must be a lasting peace. (Loud applause). It must not be a peace which would leave a new and more devastating war. As you may imagine, I have been scanning the horizon anxiously. I cannot see any terms in sight which would lead to an enduring peace. I feel that the only terms which would be possible, now, are terms which would end in an armed truce, which will see an armistice going in, even more frightful struggles."

That is why we are getting all our strength into getting the truce into the conflict now (Cheers). That I may be asked the question, is such a settlement within immediate reach? I have already said that in my judgment it is not. It is not a question of time, but of the terms which would be possible, now, are terms which would end in an armed truce, which will see an armistice going in, even more frightful struggles."

That is why we are getting all our strength into getting the truce into the conflict now (Cheers). That I may be asked the question, is such a settlement within immediate reach? Ralph Greene hauling culverts

\$1.50.

J. J. Baker was advised that
the municipality would pay him
9 per cent interest on amount
due him from March 1st on re-
ceipt of order from his solicitor
for costs in horse case.

Councillor Wilson was in-
structed to investigate account of
Beaver Lumber Co.

L. A. Walper was employed to
haul 145 poles from Escel to 24-
30-5 for \$80.00. Secretary was
instructed to haul grader from
Cereal to 22-29-6. Department

of Public Works was requested
to survey roadway on north
side of 29-29-6 whole of road to
be taken from section 29. Applica-
tion was made to Union Bank
for credit to make payments on
all amounts due hail insurance
board. Fee for Returning Of-
ficer was fixed at \$35.00.

L. C. Michaels was appointed
assessor for 1918. The account
of Geo. Ball was tabled till in-
vestigated by Councillor Ellis.

Geo. Ball was employed to
grade road north of Cereal,
to be charged against 1918 levy.

John Dahl was offered \$12.00
per year for use of pound which
is to be satisfactory to Council.

Pound was located at 8½ 24-
30-5 with L. A. Walper as pound-
keeper. Council adjourned to
meet on Monday Dec 3rd 1917.

Ralph Green See Treas.

The Sibbald Red Cross Society
had many guests from this dis-
trict at its dance last Friday, in
Ball's Hall. The admission charge
was \$2.50 the couple and no
other money making schemes
were in vogue. The proceeds
will be sent into central head-
quarters, Calgary.

"Your Lumbermen"

MAD MARJORY

L. G. MOBERLY

WARD, LOCK & CO., LIMITED
LONDON, Melbourne and Toronto

It was very late on one summer's night when she left Connie's room and made her way slowly down to that drawing room to find a book for that exciting young lady. She was very tired—she tried that her brain felt numb, and Connie had been with her all day, and she was tired. She felt as if she had been physically battered and buffeted, and her steps were very languid as she moved down the stairs and opened the drawing room door. She was on the point of putting out her hand to the switch to turn on the electric light, when she saw something that made her start nervously and pause at the threshold. She saw that in Mrs. Trevelyan's hands she held a key and the lady of the house was at Mrs. Trevelyan's door.

The house was very still—deadly, horribly still. Mad Marjory felt the stillness as if it were something that could actually be felt. Everybody was upstairs and asleep. She had imagined that she was alone on this floor, and yet the lights were shaded in the hall, and she was alone. She went down the stairs and opened the door to her room two hours earlier.

The house was very still—deadly, horribly still. Mad Marjory felt the stillness as if it were something that could actually be felt. Everybody was upstairs and asleep. She had imagined that she was alone on this floor, and yet the lights were shaded in the hall, and she was alone. She went down the stairs and opened the door to her room two hours earlier.

She thought he was dead," she exclaimed, a look of indecipherable terror spreading her face. Before God I thought he was dead. Then she screamed he could be alive, and he was. Then she said, "to realize what she was saying, and with supreme effort she pulled herself together, and spoke more quietly and with less of terror in her accents. "I am afraid I am talking nonsense," she said trying to speak rationally, to infuse a note of naturalness into her voice, but the attempt was not altogether a successful one, and fear still lingered in her eyes. "Don't know what I am saying, have had a fright," she went on. "But no one must know, no one must know. You have got to be a body-knower." She seized Mrs. Trevelyan's arm, and looked into her eyes with a glance that was one of almost frantic appeal. "Nobody must know," she repeated, with parrot-like persistence.

"Let me call somebody to help you now," the girl said, sympathetically, "person who hurt you. Wait a bit, I'll have him here." With a natural idea that her husband had been taken in the room, she was pulled out and her husband was taken in the room. The girl was taken in the room, and the girl was taken in the room. The girl was taken in the room, and the girl was taken in the room.

After the Two Great For a Lifetime Movies. The first of the two great movies, "The Great For a Lifetime Movies," is a story of a man who is taken in the room. The second of the two great movies, "The Great For a Lifetime Movies," is a story of a man who is taken in the room.

"PAIN KILLER" TOBACCO

A BRIGHT TOBACCO OF THE FINEST QUALITY 10 CENTS PER PLOUG

Magdalen Islands

Owned by English Admiral—Lately Spoke in Galt

French is spoken in the Magdalen Islands, but English is also commonly in use and Entry Island is an English-speaking colony. The Bird Rocks, the chief breeding spot of gannets and gulls, is very difficult to reach in a huge net-baited by the light-keeper and his men. The steamers make the call to these spots once a month, the infrequency of her visits being due to the fact that the landing is at all times attended with some danger.

Over the last word her voice again spoke to a man, and the slipped back against the cushions with a gasp of pain. Meg felt upstairs to do her bidding, gently trembled in her mind as to whether she was doing right in allowing her mistress to be left or whether she ought to ignore those imperative orders and summon help. She felt very young and ignorant, the shrink from the responsibility of hanging up the strange incident, and allowing Mrs. Trevelyan to go without any help more skilled than hers.

The extraordinary violence of her orders, the almost frantic manner in the injured woman's eyes, acted as a powerful factor in Meg's decision, though she still felt that it was not right to let her mistress go without any help more skilled than hers. She felt very young and ignorant, the shrink from the responsibility of hanging up the strange incident, and allowing Mrs. Trevelyan to go without any help more skilled than hers.

She thought he was dead," she exclaimed, a look of indecipherable terror spreading her face. Before God I thought he was dead. Then she screamed he could be alive, and he was. Then she said, "to realize what she was saying, and with supreme effort she pulled herself together, and spoke more quietly and with less of terror in her accents. "I am afraid I am talking nonsense," she said trying to speak rationally, to infuse a note of naturalness into her voice, but the attempt was not altogether a successful one, and fear still lingered in her eyes.

(To Be Continued.)

A Heroine of War

Has Been Decorated With Legion of Honor

Mme. Maitre, wife of the deputy for Lyons, is one of the most heroic figures in France today. From the beginning of the present war Mme. Maitre has lived the life of a soldier with the Alpines Chasseurs. She has been foremost in every battle with the regiment to which she has attached herself. Many a time she has been wounded when on her errands of mercy. Like the soldier at the front, she was in the thick of it, and this of it not heeding the hail of bullets or bruising of shells.

Fortunately, her wounds were slight and not to hinder the surgeon at the hospital. She returned to her own home to nurse her injuries. For her heroic deeds she was rewarded, having received many honors. She was named after the Croix de Guerre, with silver clasp. The Chasseurs were transferred to the Flinders River and one day while busy on the battlefield a shell just over the eye, which she was carrying to a wounded man, was constant observation. Here she was frequently visited by civil authorities and, as a reward for her heroic deeds she was decorated with the cross of the Legion of Honor—From L'illustration.

When Germany has to Face Not the latest news of the German situation is a satisfaction in the consciousness of a few days and weeks of lightfulness held in the air. The German situation is a satisfaction in the consciousness of a few days and weeks of lightfulness held in the air. The German situation is a satisfaction in the consciousness of a few days and weeks of lightfulness held in the air.

Eitel, the name of the Kaiser's second son, is the modern German form for Atilla.

Wrist is Part of Hand

Peculiarities of Arms of Civilized Peoples are Explained

In the higher races of mankind the upper bone of the arm is twisted in a peculiar way, so as to make the hand a better tool by bringing the thumb into a more favorable position. This is one of the most curious of Nature's anatomical adaptations. Furthermore, the muscles of the thumb are so arranged as to give to the member more independent action than is enjoyed by any of the other fingers. There is a flexor and an extensor for each joint, which is not the case with the other fingers, and the thumb muscles are extraordinarily strong.

The real wrist, as one might say is the elbow joint. It is all hand, practically speaking, from that point to the tips of the fingers. When you turn your wrist, it is the whole forearm that makes the twist; and every power to turn the wrist to the left and to the right is possessed only by human beings and monkeys, and even the higher apes are not able to do the trick nearly as well as we can. In this movement the great biceps muscle in the upper arm is importantly concerned, its powerful action in turning the forearm outward being the main factor in the movement.

We are able to put so much more comparative power to the wrist in that direction than the opposite way. Many of our most familiar tools, indeed, such as the screw-driver, are made with reference to the anatomical peculiarity of human beings and monkeys, and no other, that all screws turn to the right.

Wonderful Record of Western Cow

One that has ten months a Holstein cow, owned by the British Columbia government, is said to have given 24,000 pounds of milk, and is expected to give a total of 33,000 pounds in the next year. This is a truly remarkable achievement for one cow. When the baby, it attained, will easily constitute a world's record.

A Fine Grass-fed Steer

A Short-horn steer recently sold at Leask, Saskatchewan, is an excellent example of the feed value of grass of Western Canada. The animal weighed 1,388 pounds. The milk was brought in by a local farmer, who claims that it has never been given any grain.

Butter Production in West

Western Canada's Dairy Industry Steadily Growing

According to a preliminary summary recently issued by the census and statistics office, the total production of creamery butter in Alberta, Saskatchewan and Manitoba in 1916 was 17,044,129 pounds, as compared with 17,044,129 pounds in 1915, representing a total value of \$5,995,537, as against \$5,769,951.

Alberta was the leading producer, with 8,521,778 pounds, compared with 7,944,148 pounds the previous year. Manitoba came next with a production of 6,574,510 pounds, which was an increase of 134,943 pounds over the output of 1915. Saskatchewan produced 4,307,699 pounds of creamery butter in 1916, as against 3,811,014 pounds in 1915.

A good beginning has been made in the production of cheese in Western Canada, 880,728 pounds having been produced by Manitoba factories last year, an increase of 154,003 pounds over the output of 1915. The cheese industry has increased its output of this product from 1,100,000 pounds in 1915 to 2,455,122 pounds last year, an increase of almost one hundred per cent in one year.

The total value of the dairy products of the three prairie provinces in 1916 amounted to 6,380,921, as against 5,769,951 in 1915. The relative value of the output of butter, being as follows: Alberta, butter \$2,042,488; cheese \$154,453; Manitoba, butter \$2,038,109; cheese \$158,332. Saskatchewan, butter \$1,338,100; cheese \$158,332.

Canada is still in its infancy and the country affords great opportunities for its development, considerable expansion in the output and value of butter and cheese may be looked forward to.

Took Years in France

It took the French years after the beginning, when the revolution broke out, and we cannot suppose that the same task will be accomplished in a few months in Russia. But we may hope that with support from the nations of the allies, the Russian army will not part of containing a large force on the east front, and that the leaders of the nation will have the real of all the blunders of the enemy for a marine peace—Westminster Gazette.

FOOD CONTROL CORNER

Pointed Paragraphs for People Who Want to Win the War

Est more fish.

Today's Motto: "Substitution is salvation."

Every pound of fish you eat makes the enemy's submarine's job more difficult.

Substitution saves us from the submarine.

There is a greater variety of fish combined.

The war is teaching us to eat intelligently.

Carry your purchases whenever you can. You will thus release labor and power for other and better purposes.

The three "B's" bread, beef and bacon, are accompanied by three "S's," save, substitute, and serve. Canada needs never fear a shortage of potatoes. The yield of tubers from urban and suburban plots was much greater this year than ever before.

War must be waged on waste. He who wastes is a great warrior. The old custom of buying in bulk should come into favor again. Cornmeal, oatmeal, sugar and flour should always be bought in bulk. The saving in deliveries alone would be appreciable.

Flying Low

The airmen are flying lower, lower, lower in front and elsewhere and harrying the trenches with death. The British organized the machine-gunners both ancient and modern. Ancient Britons dashed through the enemy's ranks in chariots armed with spears, sticking out from their hubs. Modern Britons have done the same on a grander scale with tanks. Today they use the aeroplane as a chariot of flying death—Chicago Tribune.

By having them
VULCANIZED

By so doing you will save money. That small outlay in the evening will pick up enough dirt and moisture in a few days to almost ruin your tire. Also you will have the satisfaction that the work is guaranteed.

The OYEN CAFE

Are You Interested in Tractors?

There are now several of the famous 10-20 Titan Kerosene Tractors working in the Oyen District. The only way to judge a Tractor is to see it working.

Any time you have an hour or two to spare when in town, call at my office and it will be a pleasure to take you out to see these machines in actual operation.

C. A. GILDERS,

Agent for the Titan 10-20, 15-20 and 20-40
Kerosene Tractors, C.C. Snowdon's Oils.

Excel News Items

J. R. Sanders left on Monday for Fort William, Ont., where he will reside.

The letter in last week's issue headed "Behind the Lines" was from Jim Church written to Ernest Watrous and the original may seen from the latter if anyone so desires.

At last one can say, threatening operations are completed for this year.

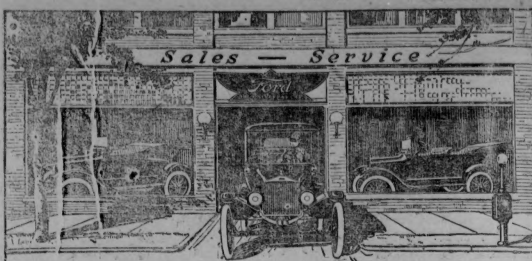

Miss Monte left Monday last for Lethbridge en route for points east.

C. Stone has taken over the livery barn from C. Thygesen who is leaving shortly with his family for the States. The den was put through last week.

Under the direction of the Glen-Avon and Kewick schools a Scotch concert will be held at Lundin school on the evening of Nov. 30th. It being St. Andrew's Anniversary the program will consist chiefly of Scotch selections. Supper will be served from 7 till 8. Ticket 75cts. Proceeds for Red Cross.

Mr. and Mrs. Robt. McMurray were visited by a surprise party last week in honor of the fortieth anniversary of their wedding. About forty guests were present and Mr. and Mrs. McMurray were the recipients of a number of beautiful presents. The evening was spent very pleasantly by those who attended and a dainty supper was much appreciated.

We are all interested in the war and to read the papers with ease you may need a comfortable fitting pair of glasses. We can fit you—J. W. Crockett, Jeweler and Optician.

Complete Service to Ford Owners Everywhere

COURTEOUS attention to your needs wherever you may travel is something you appreciate, and being a Ford owner you can get it. You are always "among friends".

There are more than 700 Ford Dealer Service Stations throughout Canada. These are always within easy reach of Ford owners—for gasoline, oil, tires, repairs, accessories, expert advice or motor adjustments.

The cost of Ford Service is as remarkably low as the cost of the car itself. Nineteen of the most called for parts cost only \$5.40. Just compare this with the cost of spare parts for other cars and you will realize the advantage of owning a Ford.

Why does Canada Raise Money by Selling Bonds?

BONDS are issued payable in ten or twenty years, as the case may be. It means that repayment of the money will be spread over ten or twenty years instead of being raised by taxation to meet current expenditures.

To raise by taxation all the money as fast as it is needed to carry on Canada's share in winning the war, would be an unbearable burden upon the people.

It would mean that more than a million dollars a day would have to be raised right now.

But to raise money by selling Canada's Victory Bonds means that those of the next generation who will benefit by the sacrifices this generation is making;

—who will share in the freedom this generation is fighting for and largely paying for—will also pay their share.

★ ★ ★

And when you buy Canada's Victory Bonds you make a first-class business investment in a security that is absolutely safe, likely to enhance in value after the war, and bearing a good rate of interest.

You help the country by keeping open the British market for Canadian products and this helps the general welfare in which you share.

★ ★ ★

And again, every Canadian who buys a Victory Bond becomes a financial partner or backer of Canada in the war.

When you buy a Canada Victory Bond

you give a personal pledge that you are going to help to win the war.

Every man and woman in Canada can help to win the war by buying Canada's Victory Bonds. And Canada wants the personal, individual interest and co-operation of every man and woman in the country.

The buying of Victory Bonds by the whole people unites them in a determination to win the war.

Every purchase of Canada's Victory Bonds is a blow for freedom against the tyranny of German Kultur.

Every bond sold is a new guarantee that Canada is in the war to the finish, until victory is with the Allies and the world has been made safe to live in.

Every bond you buy is a new pledge that Canada will remain true to herself, the Empire, the Allies and to freedom's cause.

So it is both patriotic and good business to

Buy Canada's Victory Bonds

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.
